

## **STEM Night with Hardware Science**

Sponsored by Koko Head Elementary School  
An “Engage & Innovate” Series Event

### *Desktop Hydroponics*

**Monday, September 10, 2018 at 6:00-7:00 p.m.**  
**Koko Head School Cafeteria**

This free “Engage & Innovate” event is for Koko Head Elementary School students and their parents/guardians. The maximum capacity for this workshop is 50 students and their parents/guardians. **This is not a drop-off event.** A parent/guardian is **required** to attend and engage with their child for the entire duration of the workshop.

**Online Registration:** Go to our school website, **[kokoheadschoool.org](http://kokoheadschoool.org)** to register starting Monday, August 20, 2018 until Thursday, August 23, 2018. Registration is first-come first-served. Hardcopy registration confirmations will be sent home before the event. Any questions? Contact our PCNC, Mrs. Stacey Lui via email at [kokohead.pcnc@gmail.com](mailto:kokohead.pcnc@gmail.com).

#### **Desktop Hydroponics**

**Use recycled plastic bottles to make a highly efficient watering system.**

Ace Hardware Science makes your local hardware or craft store into a one-stop shop for hands-on scientists of all ages.

Learning science, technology, math and engineering (STEM) is more important now than ever. Simple equipment and tools available make exploration of the world around you accessible and fun.

In Hardware Science, DIY doesn't just stand for do-it-yourself – it also stands for discover-it-yourself.
